2021 Community Calendar

The Community Calendar the path to build strong partnership
History

History has proven a correlation between community economical growth and existing community based organizations. CBOs are not necessarily access centers in the Haitian community. AEDAP more than an organization distinguished itself as the regular CBOs with these two criteria.

1) Aims to build a movement where organizations become strong partners through the practice of:
   A) Association
   B) Exchange
   C) Development
   D) Activities
   E) Lastly Partnership

AEDAP remains proud of its motto: Strong Partnerships build Strong Communities. Se patnè solid ki bati yon kominote solid.

Strong being defined as Sustainable, unbreakable, supportive, moreover not competitive with excessive duplication but ongoing building of a true essence of collaboration.
